

Cookies

This website uses cookies.

Cookies are small text files stored on your computer by your browser. They're used for many things, such as remembering whether you've visited the site before, so that you remain logged in - or to help us work out how many new website visitors we get each month. They contain information about the use of your computer but don't include personal information about you (they don't store your name, for instance).

This policy explains how cookies are used on this website in general - and, below, how you can control the cookies that may be used on this site (not all of them are used on every site).

About This Cookie Policy

This Cookie Policy applies to Monoceros Innovation Advisory Limited ("**Monoceros**") website including and the website in respect of the Greening Society and any mobile applications we may have from time to time ("**the Website**").

In this Cookie Policy, when we refer to our Website, we mean any website or mobile application operated by or on behalf of Monoceros including in respect of the Greening Society, regardless of how you access the network. This Cookie Policy forms part of our Terms of Business.

By accessing the Website, you agree that this Cookie Policy will apply whenever you access the Website on any device.

Any changes to this policy will be posted here. We reserve the right to vary this Cookie Policy from time to time and such changes shall become effective as soon as they are posted. Your continued use of the Website constitutes your agreement to all such changes.

Our Use of Cookies

We may collect information automatically when you visit the Website, using cookies.

The cookies allow us to identify your computer and find out details about your last visit.

You can choose, below, not to allow cookies. If you do, we can't guarantee that your experience with the Website will be as good as if you do allow cookies.

The information collected by cookies does not personally identify you; it includes general information about your computer settings, your connection to the Internet e.g. operating system and platform, IP address, your browsing patterns and timings of browsing on the Website and your location.

Most internet browsers accept cookies automatically, but you can change the settings of your browser to erase cookies or prevent automatic acceptance if you prefer. Remember that if you turn off cookies in your browser then these settings apply to all websites.

Types of Cookies

The following types of cookie are used on this site. We don't list every single cookie used by name - but for each type of cookie we tell you how you can control its use.

1. Personalisation cookies

These cookies are used to recognise repeat visitors to the Website and in conjunction with other information we hold to attempt to record specific browsing information (that is, about the way you arrive at the Website, pages you view, options you select, information you enter and the path you take through the Website). These are used to recommend content we think you'll be interested in based on what you're looked at before.

2. Analytics cookies

These monitor how visitors move around the Website and how they reached it. This is used so that we can see total (not individual) figures on which types of content users enjoy most, for instance.

You can opt out of these if you want.

3. Third-party service cookies

Social sharing, video and other services we offer are run by other companies. These companies may drop cookies on your computer when you use them on our site or if you are already logged in to them.

Please refer to the respective platform's privacy policies.

4. Site management cookies

These are used to maintain your identity or session on the Website. For instance, where our websites run on more than one server, we use a cookie to ensure that you are sent information by one specific server (otherwise you may log in or out unexpectedly). We may use similar cookies when you vote in opinion polls to ensure that you can only vote once, and to ensure that you can use our commenting functionality when not logged in (to ensure you don't see comments you've reported as abusive, for instance, or don't vote comments up/down more than once).

These cookies cannot be turned off individually but you could change your browser setting to refuse all cookies (see above) if you do not wish to accept them.
